Significant Historical Events and Lessons

Date / Depth	Event	Severity	Evidence / mitigation / lesson
2012-11-03 1460 m	Stuck Pipe	Critical	Hookload became erratic during pipe movement. Mitigation: Reduce ROP and increase circulation before high-angle interval. Lesson: Use offset stuck-pipe depth to increase circulation and reaming frequency.
2012-11-25 1721 m	Kick	Critical	Unexpected background gas rise preceded influx. Mitigation: Increase mud weight within fracture-margin limits and monitor gas trend. Lesson: Treat pit gain plus gas increase as an early influx indicator.
2012-08-14 422 m	Kick	High	Unexpected background gas rise preceded influx. Mitigation: Shut in, verify influx and circulate using approved well-control procedure. Lesson: Treat pit gain plus gas increase as an early influx indicator.
2012-09-11 793 m	Kick	High	Drilling break followed by positive flow check. Mitigation: Increase mud weight within fracture-margin limits and monitor gas trend. Lesson: Treat pit gain plus gas increase as an early influx indicator.
2012-09-15 842 m	NPT	High	Rotary and WOB remained at zero during downtime. Mitigation: Verify equipment health before resuming drilling. Lesson: Consistent NPT coding enables meaningful cross-well comparison.
2012-10-14 1210 m	Mud Loss	High	Intermittent circulation losses developed while drilling ahead. Mitigation: Reduce ECD, treat losses with LCM and confirm stable returns. Lesson: Prepare LCM package before approaching correlated offset-well loss depth.
2012-12-16 1979 m	Kick	High	Unexpected background gas rise preceded influx. Mitigation: Re-establish overbalance and monitor pit/flow balance. Lesson: Maintain mud-weight window using offset pressure evidence.

Completion Summary

The synthetic well reached 2345 m MD in the Tipam interval. The NWIS knowledge record links 13 historical operational events to depth-matched telemetry. Risk classification is derived from formation, depth, trajectory and event history rather than formation alone.

This report is generated solely for SIH/NWIS prototyping and model development.
